Mitesco divider

I divideri possono essere realizzati con pannelli posti su un solo lato o su due lati contrapposti, ottenendo così soluzioni fonoassorbenti esteticamente identiche su ambo i lati. Scegliendo nella gamma di colori disponibili, i pannelli Mitesco si possono combinare tra loro liberamente per ottenere mix cromatici interessanti e personalizzati.

EN The dividers can be realised with panels placed on one side only or on two opposing sides, thus obtaining sound absorbing solutions aesthetically identical on both sides. Choosing from a range of available colours, the Mitesco panels can be freely combined with each other to obtain interesting and customised colour mixes.

F Les cloisons peuvent être réalisés avec des panneaux sur un des côtés ou sur les côtés opposés, en profitant ainsi de solutions phono-absorbantes esthétiquement identiques de deux côtés. En choisissant dans la gamme des coloris disponibles, les panneaux Mitesco se peuvent juxtaposer librement afin d'obtenir des mix chromatiques intéressants et personnalisés.

D Die Paneele können als Raumteiler eingesetzt werden. Auf einer oder auf zwei gegenüberliegenden Seiten aufgestellt, werden damit ästhetisch ansprechende und akustisch wirksame Lösungen erzielt. Die Farben der Mitesco Paneele können frei untereinander kombiniert werden. Dadurch kann eine optisch ansprechende Farbgebung und Raumgestaltung erreicht werden.

E Los divisores pueden ser realizados con paneles colocados sobre un solo lado o sobre dos lados contrapuestos, logrando así soluciones fonoabsorbentes estéticamente idénticas. Eligiendo entre la gama de los colores disponibles, los paneles Mitesco se pueden combinar libremente entre ellos para lograr mezclas cromáticas interesantes y personalizadas.
