TRI BU

Paola Navone - Otto Studio

I "Quattro elementi fonoassorbenti colorati, dalle forme geometriche, compongono sulle pareti grandi maschere silenziose dall'immagine un po' tribale e un po' pop. Come in una curiosa performance teatrale dialogano tra loro divertendosi a catturare suoni e rumori."

EN "Four coloured sound-absorbing elements with geometric shapes create large silent masks on the walls with a somewhat tribal and pop image at the same time. As in a curious theatrical performance, they talk to each other while having fun capturing sounds and noises."

F "Quatre éléments phono-absorbants colorés, qui composent sur les parois de grands masques silencieux à l'aspect un peu tribal et légèrement pop. Comme dans une pièce de théâtre d'avant-garde, ces éléments dialoguent entre eux en s'amusant à capter les sons et les bruits".

D "Vier farbige schallabsorbierende Elemente bilden an den Wänden große, stille Masken von leicht tribalem und leicht poppigem Aussehen. Wie in einem kuriosen Schauspiel führen sie einen Dialog miteinander und vergnügen sich damit, Klänge und Geräusche einzufangen."

E "Cuatro elementos fonoabsorbentes de colores crean sobre las paredes grandes máscaras silenciosas que aúnan inspiración tribal y estética pop. Como en una original performance teatral, parecen dialogar entre ellas, jugando a capturar sonidos y ruidos."

(Paola Navone)

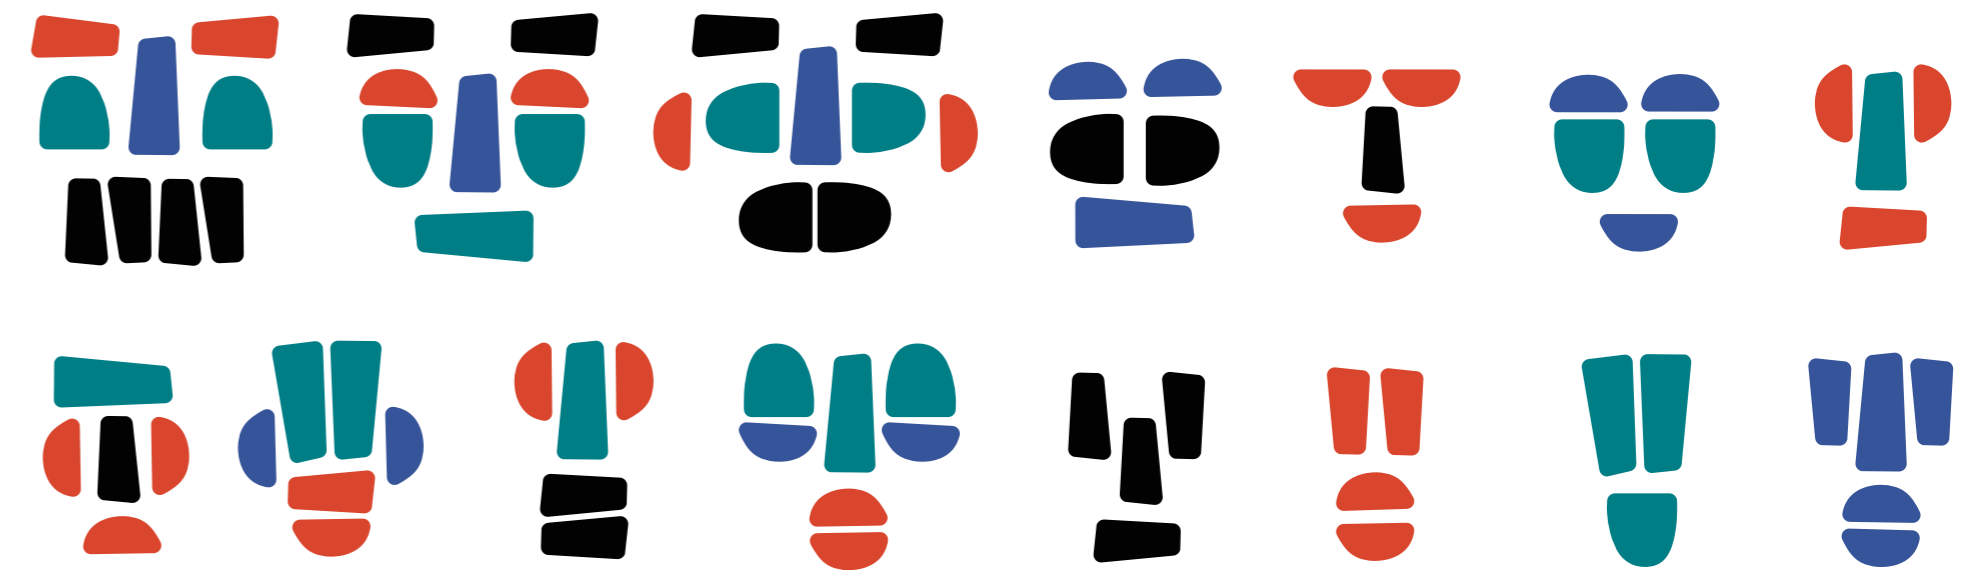

I Pannelli fonoassorbenti a parete, realizzati con tecnologia Snowcustom. Tri Bu si compone di quattro elementi che si possono combinare tra di loro, dando vita a diverse composizioni. Fissaggio a parete tramite attacchi magnetici.

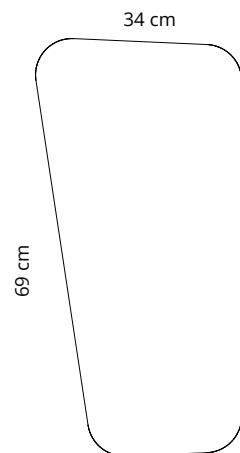

EN Wall-mounted acoustic panels with Snowcustom technology. Tri Bu consists of four panels that can be fixed to walls in different configurations. Wall mounted through magnets.

F Panneaux phono-absorbants pour paroi, produit avec la technologie Snowcustom. Tri Bu est composé de quatre éléments qui peuvent être combinés entre eux, pour créer différentes compositions. Montage mural au moyen d'attaches magnétiques.

D Schallabsorbierende Wandpaneele, hergestellt mit Snowcustom-Technologie. Tri Bu besteht aus vier Elementen, die miteinander kombiniert werden können und somit verschiedene Kompositionen ermöglichen. Wandbefestigung durch magnetische Halterungen.

E Paneles fonoabsorbentes para pared realizados con tecnología Snowcustom. Tri Bu consta de cuatro elementos combinables entre sí que permiten crear distintas composiciones. Se colocan en la pared mediante anclajes imantados.

7TR1-6071

Pannello con imbottitura interna in poliester a densità variabile, rivestimento esterno in tessuto Snowsound-Fiber Textiles. **Compresi attacchi a parete magnetici.**

Panel with variable-density polyester internal padding, outer cover in Snowsound-Fiber Textiles. **Including magnetic wall connections.**

7TR1-3094

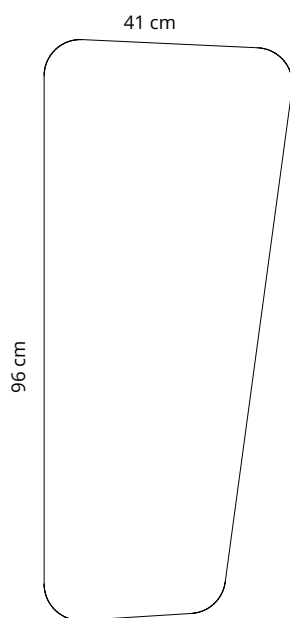

Panneau avec rembourrage interne en polyester à densité variable, revêtement externe en tissu Snowsound-Fiber Textiles. **Connexions murales magnétiques inclus.**

Panel con acolchado interior de poliéster de densidad variable, revestimiento externo en Snowsound-Fiber Textiles. **Incluye conexiones magnéticas de pared.**

7TR1-8033

Panel mit Polyester-Füllmaterial von unterschiedlicher Dichte, Außenbezug aus Snowsound-Fiber Textiles. **Inklusive magnetischen Wandanschlüssen.**
